

# Less clicks – less errors – better overview

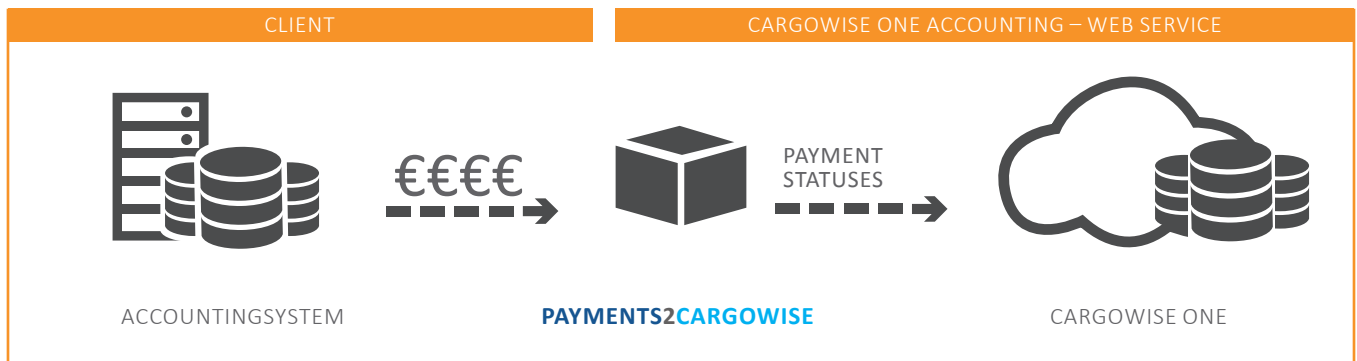

Synchronous payment statuses between your accounting system  
and your CargoWise One with Payments2CargoWise

Do you use an external accounting system outside CargoWise One and need to have payment status updates related to invoices and credit notes (A/R and A/P) also in CargoWise One? Payments2CargoWise enables you to synchronize payment statuses between your accounting system and CargoWise One

## Your Advantages:

- Actual payment statuses are visible in CargoWise One
- Automatic single or bulk import of payment statuses
- Manual transmission of single transactions possible via graphical user interface
- Interface can be configured on your own

## How it works:

Your external accounting system provides a report of incoming and outgoing payments in a standardized CSV format. Payments2CargoWise processes the data received from your accounting system and transmits relevant payment information via Accounting Web Service to CargoWise One. One data export and a few clicks enable to update accounting transactions in bulk with relevant payment information.

In addition, Payments2CargoWise allows to provide part payments as well as full payments manually via a graphical user interface. Recording payments directly in CargoWise One is due to multiple required steps laborious, time consuming and error-prone (e.g. transposed digits). With Payments2CargoWise you can transmit incoming and outgoing payments easily and accurately to CargoWise One. Hence payment statuses of accounting transactions will be updated in your operational system.

## Available connectors:

**SAGE2CW**

**DATEV2CW**

**SAP2CW**

**NAV2CW**

**AX2CW**

## Our expertise:

As the largest certified WiseService Gold Partner in continental Europe, we help our globally operating customers to use and utilize CargoWise One optimally and to extend the system by useful components. Deep industry and system know-how are the basis for the successful consulting and implementation of CargoWise One for our customers and us. This also applies to
